Mount Wellington Cableway Co. Completes Response to Council Application

Chair of the Mount Wellington Cableway Company, Chris Oldfield, said today that the company had completed its response to the Request for Further Information (RFI) from Hobart City Council in relation to the company's Development Application (DA)

"MWCC lodged the DA in June this year and over the last six months we have been ensuring that the responses we have developed in relation to the Council's request for additional information were comprehensive and thorough," Mr Oldfield said.

The Company had engaged several additional expert consultants to address some of Council's requests, such as determining whether the land designated for an access road was contaminated from the adjacent municipal landfill site.

"Following a request from Council, we have agreed to defer lodging our response to Council until after the Christmas break as we believe to lodge this week would place undue pressure on Council staff during this holiday period.

"We are pleased to work with Council to ensure our project is assessed properly and we have informed the Council that we will lodge the RFI response on Monday 6 January 2020," Mr Oldfield said.
